LEARNING

## GROWING BEYOND CHATGPT

The Friday Institute is committed to advancing innovation and equity in the K-12 landscape through digital tools and emerging technologies, with a particular focus on the transformative impact of Artificial Intelligence. We actively engage with state, district, & school-level educators to foster AI awareness and adoption, to leverage AI for deeper learning and student engagement, and to advocate for ethical and responsible AI for students, teachers, and communities.

At the Friday Institute, our overarching goal is to empower educators by providing hands-on guidance to enhance AI fluency, ultimately transforming teaching and learning experiences.

## LET'S TALK

01

Contact us.

02

We will customize a plan of support to meet your AI educational needs.

03

We will build a relationship along with sustainable AI capacity building and support that is both job-embedded and research-based.
