

Computer Science Training and Support

Leading North Carolina in Computer Science Professional Development

The Friday Institute is actively working to prepare districts and schools to bring Computer Science to the forefront of education through strategic planning, professional development, and teacher preparation.

Strategic Planning

The Friday Institute played a crucial role in developing the state's CS Standards and has been a leading force in coordinating CS education in North Carolina. We are ready to offer tailored support for districts and schools.

Professional Development

The Friday Institute is at the forefront of Computer Science training and support, having successfully trained hundreds of teachers statewide in K-12 Computer Science integration and curriculum.

Quality Resources and Support

The Friday Institute experts are ready to help schools and districts introduce computer science to students and support teachers in integrating it into other curriculum areas, enhancing their work with new skills and tools.

“

I find myself talking to my students more - having real conversations around how they best learn.”

- 2023/24 Cohort CS Teacher

“

My students are more engaged and more excited to collaborate with each other.”

- 2023/24 Cohort CS Teacher

Our team of educational professionals and instructional designers and coaches know that dedicated and well-prepared teachers and leaders are key to the success of any initiative within a school. We engage. We build capacity. We design with the learner in mind.
